telephone and wireless services of the United States will be on a war basis. They will be directly and entirely under the control of the Navy Department.

The United States, from 4 o'clock next Saturday afternoon until Monday morning, will take over both the wire and wireless services of this country.

Through the co-operation of the American Telephone and Telegraph Company, all of the telegraph and telephone facilities of the Nation, as well as the wireless, will be at the disposal of the department.

It is the plan of the Navy Department to be in constant touch with naval stations on the Atlantic and Pacific, and the battleship New Hampshire, which will cruise off the Atlantic Coast.

This plan is announced officially as a test of the country's wireless facilities. The test was arranged several weeks ago, before the German crisis, and Secretary Daniels says it has no connection with the submarine issue.

This is an undertaking never before attempted by any country. Chiefs of bureaus having to do with defense problems and their execution in time of war will carry on all business with naval stations by telephone. A special switchboard has been installed in the Navy Department. Wires lead from it to the office of the Secretary, the Assistant Secretary and bureau chiefs. From these branches direct communication can be had with any point in the United States and with American warships far out at sea.

The wires used for telephonic communication will be connected with telegraph instruments, and telegrams and telephone messages will be sent over them at the same time. Four

telephonid printing machines will be put on the wire connecting the New York Navy Yard with the Navy Department.

Throw Away Your Eye-Glasses

A Free Prescription

You Can Have Filled and Use at Home. Do you wear glasses? Are you a victim of eye-strain or other eye-weakness? If so, you will be glad to know that there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all; now I can read everything without any glasses, and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye trouble of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Opton. Fill a two ounce bottle with warm water, drop in the Opton tablet and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.—Adv.

Furs Repaired

Let us repair your furs in the dull season, when we have plenty of time to devote to the work. Lowest charges are obtainable now.
